WORK EXPERIENCE

Product Manager

INDmoney, Bangalore, India

Nov 2025 – Present

- Built a real-time Redash monitoring dashboard for IDFC Bank deposit flows tracking API success/failure rates, transaction status (pending/failed/completed), settlement timelines, error codes, and latency — supporting 300+ daily transactions and driving deposit conversion from 14% to 25%.
- Owned the end-to-end withdrawal experience, optimizing settlement timelines and reducing the withdrawal cycle from T+3 to T+2.
- Built and enhanced the Customer Support dashboard and in-app flows, reducing CS dependency by 50% through proactive communication and self-serve resolution for stuck transactions.

Product Manager 1

Jupiter Money, Bangalore, India

Jan 2025 – Nov 2025

- **Digital Gold:** Partnered with SafeGold to scale digital gold investments, driving a 90% increase in investment value within 6 months and converting 35% of non-serious investors into active investors via cross-selling.
- **Loan Against Mutual Funds (LAMF):** Ran user research to identify friction, optimized the loan journey, and reduced minimum thresholds — delivering 2x daily disbursements and a 50% revenue uplift.
- Revamped support with an AI chatbot and telephone assistance, improving CSAT by 20%, cutting resolution time by 30%, and lowering operational costs.
- **FD & MF Marketplace:** Launched the FD marketplace with Blostom, offering 25+ FDs across multiple banks and simplifying MF/FD journeys to strengthen retention.

Associate Product Manager
